Publications	Citations	h-index	i10-index	Field-weighted impact	World top 10%

Counted from the 1,127 publications listed below, 1951–2026. Field-weighted impact is the mean over the 36 works scored for it; 1.00 is the world average for works of the same field, type and year. 0 of the 36 papers scored for it are among the world's most cited tenth for their field, type and year.
